

Step 1: Open PowerBI → Get Data → Excel Workbook

Step 2: Select Dataset

Step 3: Load Student , Course , Enrollments Table

The screenshot shows the Power BI Desktop interface. The Navigator window is open, displaying a list of tables: Courses, Enrollments, Semesters, and Students. The Enrollments table is selected. The table preview shows the following data:

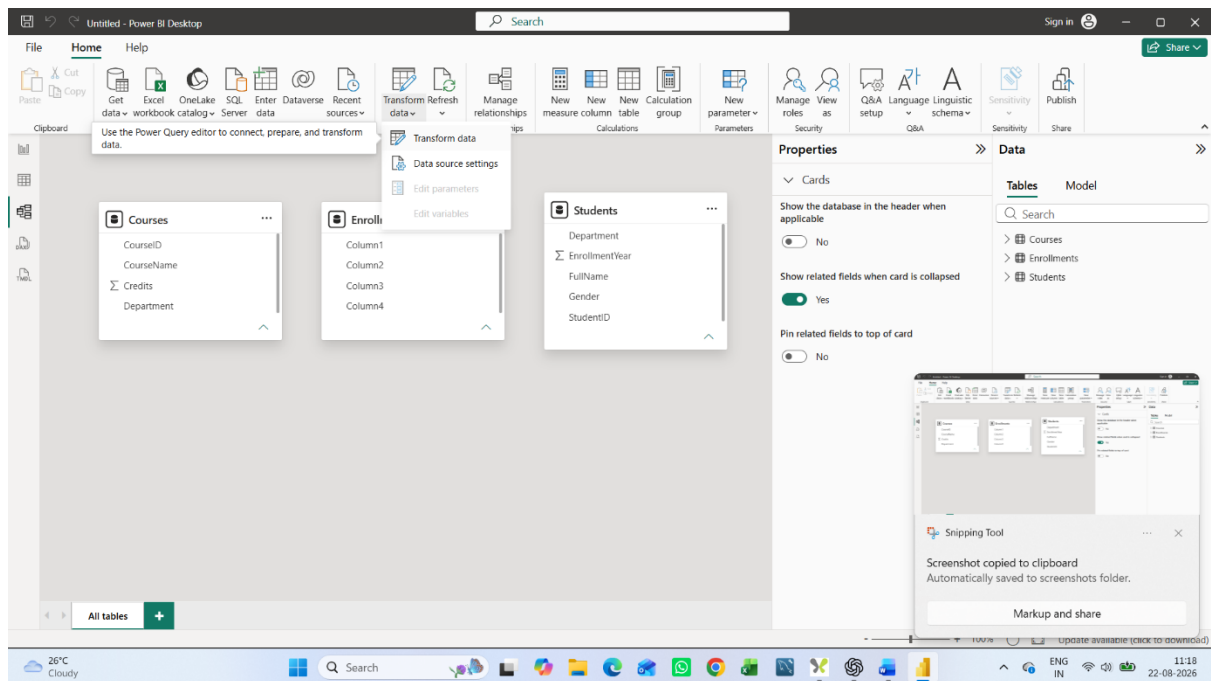

Column1	Column2	Column3	Column4
EnrollmentID	StudentID	CourseID	Grade
E001	S001	C101	A
E002	S001	C102	B
E003	S002	C201	A
E004	S003	C101	A
E005	S004	C301	B
E006	S005	C401	A
E007	S003	C102	C
E008	S002	C401	B

The Visualizations pane on the right shows various chart and table icons. The bottom status bar indicates the page is 'Page 1 of 1' and the zoom level is 82%.

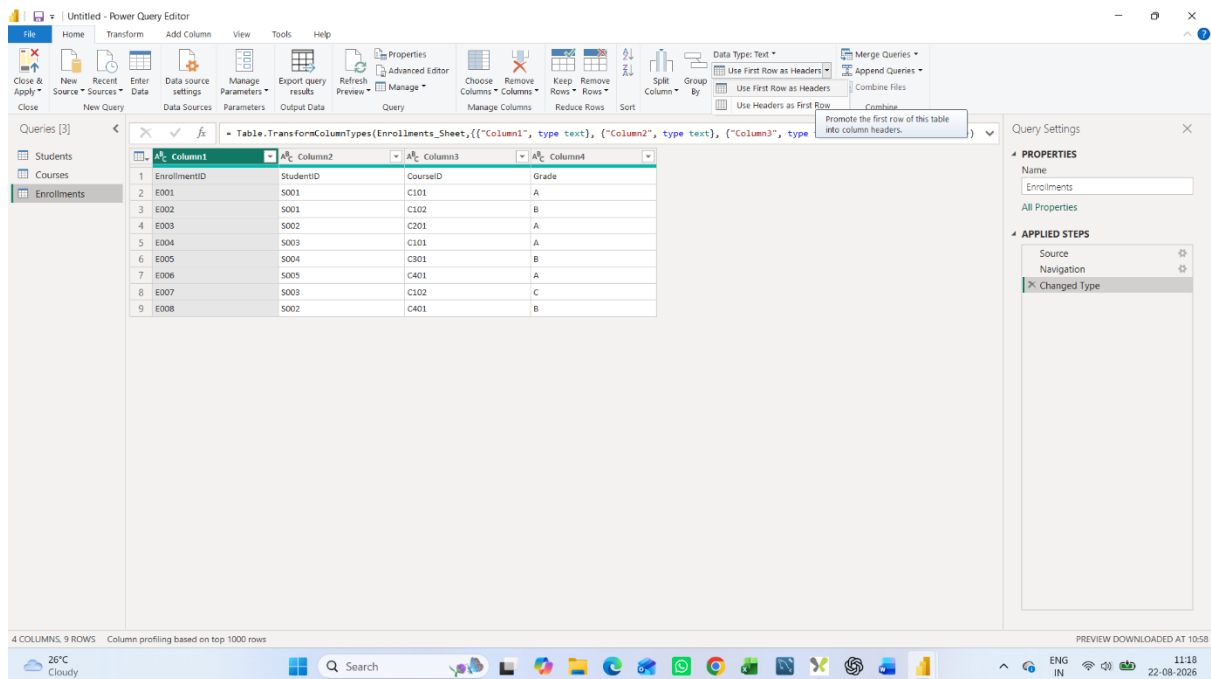

Step 4: Check connection in Model view

The screenshot shows the Power BI Desktop interface in the Model view. Three tables are displayed: Courses, Enrollments, and Students. The Courses table has fields: CourseID, CourseName, Credits, and Department. The Enrollments table has fields: Column1, Column2, Column3, and Column4. The Students table has fields: Department, EnrollmentYear, FullName, Gender, and StudentID. The Properties pane on the right shows the 'Cards' view settings. The bottom status bar indicates the page is 'All tables' and the zoom level is 100%.

Step 5: Home → Transform Data → Transform Data

Step 6: Home → Use First Row as Headers

Step 7: Close & Apply

The screenshot shows the Power Query Editor interface. The 'Close & Apply' button is highlighted in the top-left corner. The main area displays a table with 8 rows and 4 columns: EnrollmentID, StudentID, CourseID, and Grade. The table data is as follows:

EnrollmentID	StudentID	CourseID	Grade
1	E001	S001	C101
2	E002	S001	C102
3	E003	S002	C201
4	E004	S003	C101
5	E005	S004	C301
6	E006	S005	C401
7	E007	S003	C102
8	E008	S002	C401

The right-hand pane shows the 'Query Settings' for the 'Enrollments' query, with the 'Applied Steps' list containing 'Source', 'Navigation', 'Changed Type', 'Promoted Headers', and 'Changed Type'.

Step 8: Shows Relationship Between Students And Enrollments with common column StudentId & Course And Enrollments with common column CourseId (1:M)

The screenshot shows the Power BI Desktop interface. The main area displays a diagram showing the relationships between three tables: Courses, Students, and Enrollments. The Courses table is connected to the Enrollments table via the CourseID column (1:M relationship). The Students table is connected to the Enrollments table via the StudentID column (1:M relationship). The Enrollments table has columns: CourseID, EnrollmentID, Grade, and StudentID. The Courses table has columns: CourseID, CourseName, Credits, and Department. The Students table has columns: Department, EnrollmentYear, FullName, Gender, and StudentID.
